

PERSPECTIVE

4-Year Old Reading!

You read the title correctly. We recently found a 4-year old girl, Mackenzie, reading some books this holiday weekend in Maple Grove, MN. The parents Amy and Ryan were amazed at what they were seeing and hearing from their 4-year old daughter. Their daughter was reading a book. This feat of reading can only be attributed to the great success of Radiant Montessori, Miss Carmelita, Miss Emily and the rest of the stellar staff.

Just recently while at the local bookstore Mackenzie brought her parents a pack of books and said that she wanted to buy them. They humored her request and bought them.

Later that week Mackenzie was found in her room sitting atop her bed with one of

the books from the series sounding out letters and reading to herself. Her parents quietly listened in the doorway as Mackenzie sounded out the letters of the words one-by-one and then ran them together to form the full word. Star struck, the parents sat down on her bed and let her confidently finish reading her book. What a holiday delight!

Stop dropping your kids off at daycare. Let them surprise you with what they can learn and maybe teach you!

Questioning Daycare

Blown away with the results of Radiant Montessori parents are questioning their earlier choices in daycare.

Traditionally, daycare is a place to keep your children safe during the working hours. Radiant Montessori is not daycare, it is a place for educating your child and keeping them safe while you are working.

Armed with the knowledge of what Radiant Montessori offers parents, and more importantly your child,

the choice of daycare or Radiant Montessori is simple. Radiant Montessori is the clear choice.

You will be blown away with the results you will see from Radiant Montessori. Allow yourself to be surprised by what your child can learn and let them keep surprising you daily. Who knows they may even teach you a thing or two!

Let's talk education. Not just Daycare.©
